## FOREWORD

One of the reasons for decelerating agricultural growth was stated to be due to technology fatigue. However, after careful evaluation of this statement, it emerged that it was not technology fatigue but non-adoption of even the available technologies by the user group. A massive effort, therefore, was thought to be necessary to ensure easy and effective percolation of technology through the available technology delivery mechanisms like KVKs to accelerate an inclusive growth. ICAR has accordingly been reviewing the technology delivery aspects of the KVKs at zonal level.

In that line, Annual Zonal Workshop for KVKs of Zone III, 2009 was held at Assam Agricultural University, Jorhat on 5-7 September 2009. The Programme Coordinators of KVKs under Zone III attended the Workshop and presented the Annual Report (2008-09) with Action Plan 2009-10. I am happy to learn that most of the KVKs have prepared their 'Vision 2020' document and developed their websites. It is a matter of concern that though a lot of technologies have been developed, they are not being percolated to the farming community. Access to inputs, credit facilities and market linkages have to be provided to the farmers. Though huge areas are being covered under FLD each year, the area under cultivation and productivity are not increasing significantly. It is felt that monitoring of KVK activities is mandatory and it is high time that stress should be given for the development of a mechanism for impact assessment.

The KVKs should take up more capacity building programmes to combat emergency situations like flood, drought, etc. Further, KVK scientists should develop cohesion among different disciplines and work in a holistic manner for agricultural development of the district.

Finally, I wish to thank Dr. B. C. Bhowmick, Director of Extension Education and his team for successfully organizing the workshop and publishing the Proceedings.

## PREFACE

The KVKs as knowledge and resource centre are committed to refinement and demonstration of latest technologies, vocational training, on farm research and thus, serving as the light house for overall rural development in the district. The activities of the KVK include technology assessment, refinement and transfer, aiming to bridge the gap between the technology developed at the research institutions and its adoption at the field level by the farmers through demonstration of technology and training of farmers, rural youths and extension personnel.

During September 5-7, 2009, the Annual Zonal Workshop for the KVKs under Zone III was held at Assam Agricultural University. In the three days deliberations, Programme Coordinators of all KVKs under Zone III presented their 'Annual Report, 2008-09' along with 'Annual Action Plan, 2009-10'. Beside this, two special sessions were held, one on Drought and Drought-like situation and the other on Maize Production, where the DDG (Agril. Extension) Dr. K. D. Kokate chaired the sessions. Issues related to climate change were discussed and KVK scientists had been instructed to prepare Contingency Plan in the event of emergency situations like flood, drought and drought-like situations, etc. Effective measures on water harvesting technology were also discussed.

I am highly grateful to Dr. K. M. Bujarbaruah, Vice-Chancellor, AAU for chairing the inaugural session and steering deliberations. It is my privilege to express thanks to Dr. K. D. Kokate, DDG (Agril. Extension), ICAR for chairing the special sessions and for interacting with the KVK scientists. Finally, I thank all the participants, scientists from Zonal Project Directorate, Zone III, Barapani, University scientists, representatives of host institutes, media personnel for attending the Workshop. I convey my sincere thanks to the members of the Organizing Committee for their help and cooperation towards successful completion of the Workshop.

(B. C. Bhowmick)

The Inaugural session of the Annual Zonal Workshop of KVKs, Zone III organized jointly by Directorate of Extension Education, Assam Agricultural University, Jorhat and Zonal Project Director, Zone-III, ICAR, Barapani was held at AAU, Jorhat on 5<sup>th</sup> Sept., 2009.

The session started with lighting of the ceremonial lamp by the dignitaries on the dais, viz., Dr. K. M. Bujarbaruah, Vice Chancellor, AAU, Jorhat; Dr. V. Venkatasubramanian, ADG (AE) and ZPD, Zone III; Dr. B. C. Bhowmick, Director of Extension Education, AAU, Jorhat and Dr. A. K. Singha, Sr. Scientist, ZPD, Zone III,

The dignitaries were then felicitated with traditional Assamese “phulam gamochas” and flower bouquet.

In his welcome address, Dr. B. C. Bhowmick, Director of Extension Education, Assam Agricultural University, Jorhat pointed out that this

workshop is an excellent forum for interaction among the KVKs of the zone. The KVKs should act as knowledge centres, he added. The preparation of C-DAP of the respective districts along with Vision 2020 document are some of the remarkable works done by the KVKs during the last year. He pointed out some of the areas of intervention by KVKs which include i) dissemination of technologies to the farmers; ii) development of appropriate mechanism by KVK for marketing of the farm produce; iii) motivation of rural youth through vocational training to stop the tendency of migration from rural to urban areas; iv) organizing capacity building programmes; v) empowering the under privileged people of the society; vi) conservation of strategic natural resources; vii) development and use of rain water harvesting; viii) land mapping in relation to soil test report; ix) development of PPP at appropriate areas; x) encouraging Farm Mechanization; xi) development of Model Farming System in the KVK; xii) technological back stopping and knowledge dissemination; xiii) extensive use of ICT; xiv) disseminating technologies applicable under prevailing drought like situation; and xv) conversion of traditional farming to entrepreneurial farming etc.

The ADG (AE), Dr. V. Venkatasubramanian explained the theme and objective of the workshop. He pointed out that apart from the mandated jobs, KVKs are presently performing multifaced activities. He clearly mentioned that the KVK is not an extension mechanism but is rather a technology application mechanism. He appealed to all not to dilute the basic mandates of KVKs. He apprised about the achievements of the

Zone III. He categorically added that the separate website for each KVK and the Vision 2020 document published by most of the KVKs under the zone are the first of its kind in the country. Commenting on the geographical indicators, he said that the NE region is very rich in bio-diversity and urged upon the KVKs to take necessary steps to protect the farmers rights.

The inaugural address was delivered by the Honourable Vice-Chancellor of AAU, Dr. K. M. Bujarbaruah. In his remark, Dr. Bujarbaruah pointed out that the preparation of Vision 2020 document and development of KVK websites are some of the excellent jobs done by KVKs. He expressed his concern that though a lot of technologies have been developed, they are not being percolated to the farming community. Analyzing the agricultural scenario, he mentioned that 65 per cent of the total Indian population is dependent on

agriculture. The provision of technology for this large group is not an easy job. Natural degradation and fragmentation of land holding are few big problems emerging now. The number of marginal farmers is increasing and the technologies generated have some syndrome groups. Access to inputs, credit facilities and market linkages have to be provided to this section. He categorically added that the farmers of the NE region suffer from technological syndrome and are not interested to adopt new technology. So, massive motivation programmes are required in this region. He expressed concern over the fact that though huge areas are being covered under FLD each year, the area under cultivation and productivity are not increasing

simultaneously. He stressed upon the development of a mechanism for impact assessment. Further he expressed concern over the lack of cohesion among different disciplines and suggested for a holistic approach.

The inaugural session ended with the vote of thanks offered by Dr. N. N. Puzari, Sr. Extn. Specialist, DoEE, AAU, Jorhat.

## Technical Session – I

**Date** : 05.09.09

**Venue** : Dr. M.C. Das Memorial Auditorium, AAU, Jorhat

**Chairman** : Dr. V. Venkatasubramanian, ADG (Extn) and i/c ZPD, Zone – III

## SPECIAL SESSION

**Date** : 06.09.09

**Venue** : Dr. M.C. Das Memorial Auditorium, AAU, Jorhat

**Chairman** : Dr. K.M. Bujarbaruah, Vice Chancellor, AAU, Jorhat

**Chief Guest** : Dr. K.D. Kokate, DDG (AE), ICAR

**Rapporteurs** : Mr. R. Borah, SMS, KVK, Barpeta  
Mr. H. C. Saikia, Farm Manager, KVK, Golaghat

The session started with the felicitation of Dr. K.D. Kokate, DDG (AE), ICAR by Dr. B.C. Bhowmick, DEE, AAU. In his welcome address. Dr. Bhowmick appraised the DDG (AE) about the qualitative and quantitative improvement in activities made by the KVKs of this region during the last year. Speaking on the drought and draught-like situation prevailing across the country this year, Dr. Bhowmick informed the house that almost all the districts of Assam have been affected by drought-like situation. Nevertheless, late rain enabled farmers to cover their fields with suitable varieties. Therefore, the loss in production in the state especially of rice may not be more than 10 per cent of last year's level. He specifically mentioned about the potentiality of summer rice and *rabi* vegetables for mitigating the losses due to drought-like situation. Mentioning about the higher productivity of summer rice, he urged upon the KVK scientists to take up strategies to ensure maximum productivity and also to encourage replacement of areas under early autumn rice by summer rice. He also informed the house that the Assam

Agricultural University had also developed few varieties like Gitesh that can perform well under adverse (stress) conditions, and hence could be suitably used in contingency plans.

Dr. K.D. Kokate, DDG (AE) released some publications of the Zonal Project Directorate (Zone III), which included “Concepts, Approaches and Methodologies of Agricultural Development”, “The Annual Report of ZPD (Zone III)”; and also the “Vision 2020 Document of the KVKs of Assam” prepared by the Directorate of Extension Education, AAU. The publications “Training Needs and Methodologies for Agricultural Development” and “KVK Directory” were released by Dr. K.M. Bujarbaruah, Vice Chancellor, AAU. The dignitaries also released a few other publications of individual KVKs.

Release of publications by Dr. K.D. Kokate, DDG (AE), ICAR and Dr. K. M. Bujarbaruah, VC, AAU, Jorhat

In his address, the Chief Guest Dr. K.D. Kokate, DDG (AE) expressed concern over the recent drought and drought-like situations that had affected several states of India including those in the North East. He urged all KVKs to have proper documentation of the KVK activities for agricultural development of the district. He asked KVKs to focus upon strategies for obtaining maximum potentiality of rice crop that has been cultivated in the state. He categorically asked the KVKs to prepare contingency plans and to take up more capacity building programmes to combat the drought situation. To compensate the shortfall in production of rice, extra stress should be given on maximizing productivity of *rabi*

crops and should concentrate on those crops requiring less water, he added. Requesting all KVKs to put the contingency plans on their website, he emphasized on using the mass media to a greater extent to reach the farmers. He also asked the KVKs to take up more programmes on fodder and vermicompost. Putting stress on proper documentation of the KVK activities, which would in turn help the policy makers, he concluded his address.

Dr. K.M. Bujarbaruah, Vice Chancellor, AAU, in his address congratulated the KVKs and the Zonal Project Directorate (Zone III) for bringing out the publications. He stressed upon assessing the impact of demonstration programmes. As the KVKs have a multifaceted role in the society, they should work giving full priority to the region, he added. In order to put the region in self-sufficiency in foodgrains by 2020 and in order to ensure the productivity, meaningful strategies need to be worked upon, followed by an efficient input delivery system and package delivery system. He urged all KVKs to develop zone specific agro-ecological farming system for ensuring good decision support system in order to help the farmers in the field. Emphasizing on the need to protect the bio-resources of the region, he appealed to all KVKs to establish e-village to reach the farmers, keeping in view the topographical and transport barriers. He also asked the KVKs to associate with NREGA programmes and to maintain a proper coordination between teaching, research and extension. He concluded his speech expressing hope that all KVKs would benefit immensely from the workshop.

5.	Karbi Anglong	Dr. A. Deka, P.C.	The house suggested to discuss the factors for variation in yield	KVK, Karbi Anglong
6.	Senapati	Dr. R.K. Matumba, P.C.	Progress report accepted by the house	KVK, Senapati
7.	Dimapur	Dr. A.Sharma, P.C.	1. The house suggested to survey the productivity of local maize in the district  2. More area to be brought under cultivation	KVK, Dimapur

---

In his concluding remarks, the DDG (AE) expected more good works as documented by the KVKs. He also stressed upon proper documentation of the drought and drought-like situation in the district as well as in the state. He also urged the KVKs to improve the present seed replacement rate. The integrated farming system approach along with the water harvesting structures must be popularized among the farmers, he added.
